ELECTRI

Your Skin Electricity

ELECTRI

DARK EYE CIRCLES

Electri provides natural skin moisturization while reversing signs of aging.

Thanks to a synergistic formulation of high molecular weight hyaluronic acid succinic acid.

SCIENCE

REDERMALIZATION

Treatment course for skin quality improvement with ELECTRI

Hyaluronic acid

is a natural skin material providing a longer lasting effect on improving skin quality.

- ✔ Helps activate anti-inflammatory
- ✔ Restores and maintains water balance
- ✔ Provides mechanical support for tissues
- ✔ Contributes to the synthesis of basic structural proteins

Succinic acid

is a natural skin component responsible for recharging skin cells and activating production of fibroblasts.

- ✔ Helps to normalize microcirculation
- ✔ Regulate cellular energy exchange
- ✔ Prevent damage of the cell membrane
- ✔ Contributes to lymphatic drainage

ELECTRI TREATMENT AREA

Administration of product by intradermal injections at the forehead area, periorbital zone, and chin area.

Forehead

Periorbital zone

Cheeks

Perioral zone and chin
